

Amendment under 37 C.F.R. §1.312
Serial No. 10/667,517
Attorney Docket No. 021498A

AMENDMENTS TO THE SPECIFICATION:

Please amend the specification as follows:

Amend the paragraph [0024] on page 4, to read as follows:

[0024] The present invention further provides in yet another aspect thereof a method of making quantum size effect micro particles, characterized in that it comprises the steps of: introducing silane into a VHF-band plasma of argon while controlling the time duration in which the silane is so introduced to form Si single crystal micro particles with their particle size controlled; forming on a substrate a layers of such Si single crystal micro particles so formed; and converting respective surface areas of the said Si single crystal ~~macro~~ micro particles in the said layer on the said substrate in the presence of a gaseous atmosphere into insulating films.
